## INDIAN CLAIMANTS

### ARE KNOCKED OUT

Washington, D. C., Nov. 8.—In an opinion by Justice Holmes of the United States supreme court today, he decided against the claimants in the case of the 13,000 Choctaw and Chickasaw Indians, who asked for redress for being excluded from the citizenship rolls of those two nations, when the rolls were prepared by Secretary E. A. Hitchcock March 4, 1907.

## JUDGE AND JUROR CLASH

COURT REFUSED PROMINENT BUSINESS MAN PRIVILEGE OF HOME LIFE.

### ATTORNEY GENERAL WEST IN CHARGE

Ex-Sheriff Garrison Placed on Trial on Allegations of Misconduct.

Oklahoma City, Nov. 9.—Climaxed by a wordy war between an obstreperous juror and District Judge Stillwell H. Russell, the first day's proceedings in the hearing of the accusation returned against ex-Sheriff Harvey D. Garrison by the grand jury came to a close at 6 o'clock last evening, when twelve prospective jurors were placed in the custody of Bailiff Thomas Burns.

Just before adjournment was announced Arthur L. Abt, manager of Mellon's store, who had qualified as a juror and taken his seat in the jury box, suggested to Judge Russell that he be allowed to go to his home for the night. Abt was informed that he would receive no special privileges not enjoyed by other members of the jury panel, whereupon he leaped to his feet with the exclamation:

"But, your honor, I desire to protest against this outrage! I have business matters which command my attention. It is absolutely necessary that I take care of them."

"Mr. Abt, you must accept the same conditions that have been accepted by the other jurors. You must remain with the other jurors. Every accommodation that can possibly be thought of will be given you, but in this instance no exception can be made in any case," responded Judge Russell.

At this juncture Abt became livid with rage. Springing from his seat in the jury box, he dramatically exclaimed:

"I demand my rights as a citizen!"

Sit down, requested Judge Russell. Abt refused to be appeased by the admonition of the court and continued his tirade against what he termed an injustice. After being cautioned several times by the court he escaped being fined for contempt and meekly took his place in line with the rest of the members of the panel when the supper hour was announced.

#### Charges Stand.

The case of Sheriff Garrison, wherein will be heard accusations charging that official with accepting two bribes of \$50 in exchange for the use of his influence in protecting Jack Burke, local gambler, padding of county jail vouchers for the lodging and feeding of prisoners, as well as dereliction in duty in failing to serve warrants issued against a part of the local gambling element, after he had been instructed to do so, opened yesterday in the district court. Probably there has never been a more brilliant array of legal talent assembled in the Oklahoma county court house than that present yesterday during the attempt to select a jury in the hearing of the charges against the accused sheriff.

The corridors of the court house were crowded with police officers arrayed in brilliant uniform, secret service men with their glittering stars of authority, county commissioners from the rural districts, women of the underworld, the usual nervous coterie of gamblers and "bootleggers," chattering women attracted by curiosity to secure a glimpse of the accused sheriff—all this combined to impress the casual observer that a case of unusual importance was about to commence.

Stolidity marked the features of Judge S. H. Russell, bailiffs tiptoed unsteadily across the carpeted room and other attaches of the court held whispered conversations in little groups about the hall and elsewhere when the case of Garrison was called.

The accused sheriff appeared in court yesterday and occupied a conspicuous chair at the long court table in the district court room. On one side of the table sat Attorney General West and his assistants, Reeves and Davenport, while on the other the chairs were occupied by Attorneys E. J. Giddings, E. G. McAdams and G. Paul, counsel for Garrison. Just to the right of Garrison sat W. D. Witcher, under indictment by the grand jury on a charge of bribery. Ex-Deputy Sheriff R. J. (Jake) Armstrong, also indicted, occupied a secluded seat among the spectators on the outside of the court railing. Undersheriff Charles Colt, resigned, occupied a place at the newspapermen's table.

#### West Is Present

When the jury has been selected today, much interesting testimony is expected. For the state, Attorney General West will present an array of witnesses unparalleled in number in a case in the district court. Counsel for the defense will produce sheriffs from El Reno, Enid, Guthrie, Chickasha, Shawnee, Anadarko, and other places to testify regarding the "formality" of charging 40 cents per day for boarding of prisoners whether or not they ever were confined in a county jail. This will be the masterstroke of Garrison's defense in that he had committed no wrong in presenting bills for and accepting warrants in payment for board of prisoners alleged to have been confined in the county jail.

All of these bills were passed by the board of county commissioners and bore the O. K. stamp of County Attorney Reardon. They were supposed to be correct according to the commissioners and Garrison received the money for the surrender of the warrants.

#### As to Alleged Bribes.

Witnesses will also be placed on the stand by Attorney General West to testify regarding the alleged acceptance of two \$50 "presents" from Jack Burke, or one of his aides, in return for which the grand jury has claimed in its accusation that Garrison promised to use his influence in awarding Burke an "immunity bath" in the event of his arrest. This charge will be vigorously resisted by Garrison. A third count charges that Garrison "overlooked" the serving of certain warrants wherein was concerned the enforcement of the law in the cases of local gamblers. Garrison's defense to this proposition may be that the warrants were "quashed" through the medium of the county attorney's office.

## NEAR \$4,000 PROFITS IN FIVE MONTHS

SUPT. STONE MAKES REPORT TO GOVERNOR UPON THE BUSINESS.

Nineteen Local Dispensaries Have Been Re-opened Since General Election a Year Ago.

Guthrie, Ok., Nov. 8.—For the five months ended Oct. 31, the state dispensary made a profit of \$3,897.23, according to report of S. W. Stone, superintendent, filed with the governor today. During the period the agency spent for enforcing the prohibition laws \$5,413.65, derived entirely from the sale of confiscated liquors, and which amount, according to the superintendent, is properly an additional credit to the department's earnings. No draft has been made upon the \$15,000 appropriation made for enforcement by the last legislature. The report shows that the total receipts for the period were \$23,323.64. The total seizures, including liquor and bar fixtures, Mr. Stone shows, reached \$8,447.32, liquors to the value of \$2,200 now being on hand and \$938.60 worth has been converted for sale through local agencies. Purchases of new liquor and alcohol amounted to \$9,000. The agency owes but \$337.12 and has cash on hand and in the bank of \$4,587.17.

Only nineteen local dispensaries have been reopened since the general election, one year ago, and they have remitted to the State for liquors sold \$7,922.68. Agents have been paid commissions amounting to \$855.75. Four other agencies were petitioned for but not opened. The superintendent states that he has personally visited twenty counties and says he finds the law well enforced in all save three. Beer to the value of \$2,456.38 left by the former regime was destroyed as being unfit for use.

#### \$50.00 and Trimmings

Jim Chapman was brought before Justice Brown this morning charged with carrying concealed weapons.

He pleaded guilty and was fined in the sum of \$50 and cost. Some people are slow in finding out that "the way of the transgressor is hard," and judging from their actions they think they are a little "smoother" than the other fellow and will not be caught.

## DO PEOPLE WANT BOND ELECTION TO BUILD ROADS

The following petition is being circulated in Pontotoc county, but appears until now to be meeting indifferent reception. This should not be, the petition should be signed by every responsible citizen.

#### Petition.

To the Board of County Commissioners of Pontotoc County, Oklahoma.

We, the undersigned qualified voters of Pontotoc County, Oklahoma, being desirous of encouraging and promoting the improvement of the roads throughout said county and the formation of Road Improvement districts therein for that purpose, and being advised that seventy-five per cent of the cost of improving any road within any such district shall be borne by the district and twenty-five

per cent by the county do hereby pray that you call an election to be held throughout said county on the question of issuing bonds of said county to the amount of \$50,000 for the purpose of raising funds with which to meet the county's portion of the cost of improving roads in improvement districts hereafter legally created. Dated this 27th day of September, 1909.

### THE DAY OF SMALLER FARMS.

Farmers Are Learning That Intensive  
Cultivation of a Score of Acres  
is More Profitable.

Virginia farmers are ceasing to be  
land poor and are becoming crop rich.  
They are seeing the fallacy of the old  
agricultural order, which bid a man  
to scrape the surface of many acres  
on broomsedge farms and give little  
attention to a dozen fields. They are  
discovering that the intensive cultiva-  
tion of a score of acres or so is more  
profitable than the extensive  
neglect of a thousand. They are put-  
ting into the bank profits which form-  
erly were charged to the other side  
of the ledger as taxes.

A section of Prince William has  
been transformed by a division into  
small farms. A colony of Dunkards  
from the valley settled around Man-  
assas and bought many acres of run-  
down, neglected farm lands. They  
divided them into small tracts and  
applied to them the best principles of  
intensive agriculture. As a result,  
"worn out" lands are today yielding  
magnificent crops, a wilderness has  
been reclaimed and farm values have  
been trebled. Virginia lands today af-  
ter almost 300 years of cultivation,  
will yield as bountiful crops as vir-  
gin soil if only they are cultivated  
closely and skillfully. If they are  
neglected and if they are farmed on  
a large scale by insufficient labor  
they cannot be expected to afford  
more than a bare living for unhap-  
py owners.

Examples of the latter system are  
seen everywhere in dilapidated farm-  
houses, lean stock and barren fields.  
Examples of the other sort can be  
seen in other places than the Dunkard  
district. Some years ago—to cite a  
single instance—a Scotch immigrant  
bought 24 acres of Virginia farm land,  
of which eight acres were unusable.  
On a plough area of less than 20 acres  
this man raised a year's crop that  
brought him \$1,000. His expenses and  
the interest on his investment did not  
amount to more than \$250, leaving  
him a net profit of \$47 per acre.—  
Richmond-Times Dispatch.

### THE SHAWNEE HERALD SOLD.

It Is Reported That Paper Will Start  
West for Governor.

Shawnee, Ok., Nov. 7.—The Shaw-  
nee Herald, one of the best known  
Democratic newspapers in the state,  
has been sold to a stock company of  
which Victor Harlow, until November  
1 secretary of the state board of  
affairs is editor and manager Every

stockholder is a democrat.

It is generally understood that At-  
torney General West is one of the  
leading factors in the new manage-  
ment and that the paper will shortly  
launch his boom for governor.

To William E. Verity, who for the  
past three and one-half years has been  
business manager and owned the con-  
trolling interest in the paper, be-  
longs the distinction of being at the  
head of a democratic newspaper, al-  
though politically a republican. At the  
time he assumed management of the  
Herald the plant was in the hands of  
a receiver, a bankrupt piece of prop-  
erty which for years had a stormy  
career. It is now in an excellent fi-  
nancial condition.

CHEERS FOR YOUNG COACH  
MARSHALL JONES.

In a chapel talk Monday morning  
Prof. Briles complimented the foot-  
ball team for its work Saturday. He  
said he could see a great improve-  
ment since the beginning of the year.  
He announced that the team would  
leave for Tahlequah next Monday af-  
ternoon and play the N. E. S. N. a  
return game Tuesday. He was very  
optimistic as to the outcome of the  
game and predicted that the score  
would be much closer than it was  
when the two teams played here at  
Ada. Continuing he said that our  
team had so improved from coaching,  
practice, and experience that it was  
now as good as the enemy's team  
was when it rolled up a score of 27  
to 0 against us, and that if their  
team had not improved in the same  
ratio we stood a good chance to  
win. He took occasion to compliment  
Coach Marshall Jones in the course  
of his speech. At the mention of  
Jones' name the student body loudly  
cheered.

Clerk Jones read a petition from  
citizens on 7th street asking for side-  
walks on said street, which was  
granted.

Another petition, signed by a num-  
ber of citizens in Capital Hill and  
Donaghey addition, asking that the  
ordinance passed last week, annexing  
those additions be reconsidered, was  
read and freely discussed. It is the  
purpose of the petitioners to have  
the line changed in taking in this  
property to include the property of  
Blanks and Weaver. The petition was  
granted without a dissenting vote.

The purchasing committee was in-  
structed to buy furniture for the po-  
lice judge and city clerk's offices in  
the new city hall.

The street committee in its report  
recommended the removal of the  
building of Harry Parks and the oil  
tanks of the Waters-Pierce Oil Co.  
which obstruct the street. After dis-  
cussing the matter freely final action  
was deferred until next meeting.

Mr. Ingram asked for a lease of  
the west room in the new city hall  
which was given him for one year.

A street crossing from 12th street  
to Cherry avenue was asked for and  
was ordered constructed.

The next regular meeting will be  
held next Monday night.

## LIVE AT HOME.

Should Be Maxim of Every Farmer  
Who Desires Relief From  
Money Changers.

Keep your money at home, live at  
home should be the maxim of every  
farmer if he desires to get out of the  
clutches of the money changers of  
this age. This can apply to the mer-  
chant as well as the farmer, for both  
are affected more or less by the  
scarcity of the circulating medium  
in their business. If the farmer  
could be induced to live at home,  
save his money and get ahead in the  
world, he could pay the merchant  
cash for his goods and escape the  
undue credit profits that the mer-  
chants charge. If the merchant re-  
ceived cash for his goods he could  
pay the manufacturer or the whole-  
saler, and thus free himself from  
the bonds, that under the credit sys-  
tem, he has to tangle himself in. The  
present system of credit hurts all,  
for while the farmer is mortgaged to  
the hilt before the crop is planted,  
or nearly so, the merchant, at the  
same time, is also bound through this  
same credit system to his creditors  
with no more chance to escape than  
the farmer if the creditor wishes to  
press him. Under a cash system none  
of this would, of necessity, have to  
be, for paying cash would relieve the  
situation and cut the everlasting hard  
and fast to the moneyed powers of  
New York and other centers.

Remember this, and determine at  
once to proceed to live at home by  
planting all that you can of the var-  
ious products that grow luxuriantly  
in the South. Sell your surplus for  
cash and pay cash for what you have  
to expend. In this way not only will  
you be a free man but it is a short  
time you farmers will have the bal-  
ance of the circulating medium on  
your side of the cash ledger, and  
thus situated you will be the lenders  
instead of the borrowers. Determine  
to do this and you can't fail.—Farm  
Co-Operator.

one in the 2nd ward of said city to be  
known as the East Side school building,  
to borrow \$15,000 and issue bonds there-  
for,

NOW, THEREFORE, BE IT RESOLV-  
ED BY SAID BOARD OF EDUCATION,  
That the Mayor of said city be and he is  
hereby requested to call an election to  
be conducted in all respects as are spec-  
ified in the resolution, for the purpose  
of taking the sense of said district upon  
the question of issuing bonds of said  
Board of Education in the amount of \$15-  
000, running twenty years from their  
date, bearing interest at the rate of five  
per cent per annum, payable semi-an-  
nually, for the purpose of raising suf-  
ficient funds to complete the erection of  
and to equip three suitable school build-  
ings in and for said district, as aforesaid.

BE IT FURTHER RESOLVED, that  
the certain resolution adopted by said  
Board on the 6th day of September, 1909,  
on the question of issuing bonds of said  
Board for the purpose of raising suf-  
ficient funds for the purchase of a school  
site and to erect and equip a suitable  
school building thereon, in and for said  
district be and the same is hereby re-  
pealed.

NOW, THEREFORE, I, L. J. Little,  
Mayor of the City of Ada aforesaid by  
virtue of the power and authority in  
me vested by the laws of the State of  
Oklahoma, and by virtue of the resolu-  
tion adopted by said Board of Educa-  
tion as aforesaid, do hereby give notice,  
proclaiming and declare that on the 17th  
day of November, A. D. 1909, an elec-  
tion will be held within said city and dis-  
trict for the purpose of submitting to  
the qualified electors of said district the  
question of issuing bonds of said Board  
of Education, in the amount of \$15,000,  
running twenty years from their date,  
bearing interest at the rate of five per  
centum per annum, payable semi-annually,  
for the purpose of raising sufficient funds  
to complete the erection of and to equip  
three suitable school buildings in and for  
said district.

The polling places in and for the re-  
spective wards and voting precincts for  
the purpose of said election are and will

## This is the Bischof Coat that the foremost Fashion Journal sketched for its Fall Fashion Number

AFTER a thorough canvass all over America,  
the leading Fashion Journal found 95 out of  
every 100 women prefer this type of coat. It is the  
sort they wear. They look at extreme models, ad-  
mire drawings of peculiar odd styles but they wear  
these simple, cleverly cut, beautifully tailored  
models.

We have, as you know, always made a specialty  
of this kind of coat. Having studied what the  
women of this city want and what they don't want,  
we order our stock accordingly.

For years, we have ordered Bischof models.

They are developments of only the finer French  
styles. A maker that keeps in as close touch with  
Paris as Bischof, never bothers with anything but  
the best styles. Nothing good escapes him. All the  
new ideas are modified and adapted to suit the  
American women's taste. Bischof suits, while  
extremely fashionable, are without exaggeration,  
the most practical garments made in America.

Just now we are showing many models in broad-  
cloth, serges, worsteds, homespuns, lined with  
satins, taffetas or mercerized linings at

Rev. S. F. Goddard, presiding elder of the Ada district in his report of the district at the conference at Muskogee last week, stated that there had been 1000 conversions and 1100 additions to the various churches in the district during the past year. The reports of the fifteen presiding elders show that 13,426 members had been received into the churches of the conference during the year.

**REV. W. M. WILSON RETURNS.**

The Popular Pastor of the First Methodist Church, South, Will Serve the Church Another Year

The congregation of the First Methodist church are very much gratified over the return of their former pastor, Rev. W. M. Wilson, for another year. While he has served this people only one year he has made for himself a warm place in the hearts of his entire membership, who would have been very much disappointed should he have been sent to serve another charge. He is a consecrated christian gentleman, and by the way, one of the best preachers in the conference, and the Methodist of Ada can congratulate themselves upon securing his services.

**Hartman-Rogers.**

Miss Mamie Rogers, age 22, and Dr. T. W. Hartman, age 31, were married this morning at 10:30 o'clock at the home of the bride's mother, Mrs. M. A. Rogers on East 13th street.

The wedding was a very quiet one, there being present as witnesses but the mother and sister, Miss Jessie, of the bride, Dr. Faust, the groom's associate in the practice of medicine and the minister officiating, Rev. J. D. White.

It was a ring ceremony. Miss Mamie was exquisitely and as appropriately attired and rarely beautiful.

Dr. Hartman, who is one of the more prominent physicians of this city handsome and confident, was entirely equal to the occasion.

Miss Rogers came to Ada when a little girl and throughout her school and young lady career was ever engaged in those pursuits of devotion to her loved ones at home and of social attractiveness and friendliness, within the society of the city, in the manner that always endears.

Immediately after marriage ceremony Dr. and Mrs. Hartman departed for Galveston and other points.

**Negro Flats Raided.**

There was something doing in dark-town last night. For some time Sheriff Smith had suspicions that whisky was being dispensed from the negro flats, but not until last night did he have sufficient evidence to justify him in making a raid. When he searched the place last night he found stored in the attic 65 bottles of booze which he confiscated.

**Two Boys and Whiskey.**

Walter Owens and Bruce Phillips, two young boys, charged with stealing whiskey from the Frisco depot, was before the judge this morning and convicted and fined ten dollars each.

It appears that the boys succeeded in getting the whiskey out of the depot during the day but was unable to get away with it, and it was concealed under the platform at the depot. When the shades of night came on the boys thought themselves safe, proceeded to get their goods, but Sheriff Smith had been notified and was waiting for them. A fine of \$10 and ten days in jail was the sentence for each of them.

ONE ACRE  
OF TOMATOES

HOW ABUNDANT CROPS CAN BE  
PRODUCED BY SUBIRRIGATION  
AND FERTILIZATION—NOT SO  
DIFFICULT.

Onions Can Also Be Made a Profitable  
Crop Handled in Same Way—The  
Experience of a Successful Grower.

Select the highest side of the tract for the distributing ditch to connect with the laterals, that should run out from it as near at right angles as possible.

Make this distributing ditch with good narrow turning plow as deep as you can, then open with hoe and shovel wide enough at the bottom to carry six inch trough upside down and deep enough to be out of way of the plowing of any crop you will plow growing on it; make this ditch with two or four-inch fall to the 100 feet, so as to move the water slowly by gravitation, then lay off your laterals at right angles and dig them with plow and hoe deep enough and wide enough at bottom to pace a six-inch trough upside down in bottom. If soil is very porous the ditches will do at twenty feet apart, but if soil is tight and close, put the laterals only ten feet apart and parallel to each other, and allow at least two-inch fall in 100 feet it might necessitate another distributing ditch to be dug parallel to the first at 100 feet away; or the highest end of the laterals could be dug some deeper so as to make the grade average the two inches to 100 feet.

## Making the Gutters.

After the ditches are prepared make up gutters or troughs of five and six-inch lumber in ten or twelve foot lengths and cut up into two-foot lengths and cresoate them in large pot of the oil loblolly. Pins is the best and the cheapest, usually \$15 per 1,000 feet. After being cresoated, then place the two plank or board trough upside down in bottom of the laterals, end to end, and cover the joint with handful of hay; then fill in dirt with handful of hay; ready for the water.

The trough for the distributing ditches ought to be made of three six-inch boards n ten-foot lengths, and place open side down, covering joints with handful of hay, and pull in dirt, and your subirrigation acre is ready for the water. Let in the water from the highest point, and let the water out from distributing ditch into the laterals by gouging out holes under the edge of the thin-plank trough where the two intersect.

## Ready for Business.

Now your plant is ready for water. Only rain water from creek or river or lake is best to use.

Now fertilize the land with cotton seed meal after it has been fed to beef cattle or sheep, if possible, using a ton at least to the acre if land is very poor. Then in January I planted my Champion Dwarf Tomato seed in rows, six feet apart, parallel with the laterals, and after plants get large enough to transplant I fill in the middle row and thin down the plants to three feet apart, and then when needed tie the limbs two to five up, to a good stout stake and pinch off and prune back vines to increase fruit.

Keep ground clear of weeds with shallow plowing until they are well loaded with green fruit, then keep weeds down with hoe or sweep; put all fertilizers on top of ground and work in gradually. If soil is short in iron ore use some preparation of iron to prevent fruit from falling off the vine after blooming. Apply iron in liquid or powder to surface when needed, say half ounce of tincture or less, in bucket of water to yard of surface, sprinkled or sprayed on.

## 5,000 Plants Per Acre.

By this plan 5,000 plants can be grown on the acre and be made to yield, easily, an average of 25 pounds to each vine, and possibly more, making a yield of 125,000 pounds, worth 2c pound, for canning and cat-snip purposes.

If the grower prefers and wants earlier tomatoes he can start plants in bed and transplant.

Ten dollars will pay for making the ditches and placing and covering the troughs; two to ten dollars will put the fertilizer on land, unless you are some miles away from the beef pen. Four thousand five hundred feet of loblolly pine will make the trough, costing some seventy to seventy-five dollars, with nails. Twenty-five dollars will cover the cresoating, etc. One hundred to one hundred and twenty-five dollars will pay for plant and cultivate it to gathering time of tomatoes. And your crop of tomatoes will run near double the cost of the plant, etc., and next year you only have to do a little repairing to the troughs under ground and get ready for another crop of tomatoes.

Or plant land to celery or peas and beans or turnips and onions.

I experimented with onions enough to know that twenty to forty thousand pounds of prizetakers can be gathered from one acre by using water and plenty of fertilizers needed by the onion. The soil I experimented with is black sandy, twelve to eighteen inches to the clay. I placed my laterals two feet apart. The water I used was lake water from a hydrant in the corner of my yard in the town of Ennis; by fixing the lowest end of laterals so that they can be opened out into a deeper ditch you can turn your sub-irrigation into a drain tile where 36 to 50 inches of rain falls during the year.

A Holland man wrote me that is the way they garden in Holland. An Arkansas man wrote me he used tilling three feet under the ground and got good results. Another man wrote me he used rock broken up in bottom of his ditch and covered them with a flat rock and grew tremendous crops on land thus prepared.

Had I not been on the road for the past five years I would today have such an acre as I have planned out. Any practical farmer or gardener can do the same.

C. T. HOGAN, Ennis, Tex.

## CONFERENCE ADJOURNS

THE SIXTY-SIXTH ANNUAL SESSION COMPLETES ITS LABORS AND ADJOURNS LAST NIGHT.

Next Conference Will Be Held at Ardmore—Muskogee Entertains the Preachers and Delegates Royally.

The sixty-sixth session of the annual conference of the Methodist Episcopal church, South, after being in session for six days, concluded its labors and adjourned last night, the last thing to be done was the reading the appointments of the preachers for the next year.

Muskogee cared for the big conference in a most delightful manner. The next conference will be held at Ardmore.

Commercial Club to Promote and Construct a Monster Dam for Water Power.

Muskogee, Okla., Nov. 8.—The recently organized commercial club at Muskogee will devote a year to promoting and building a monster dam in the Grand river, if it requires that much time, for the purpose of generating water power and a gravity pressure water supply for Muskogee. It is estimated the cost of the dam will be \$700,000.

Already an organization of ten men

who will put in \$10,000 each has been secured. This company proposes to take options on land and promote a great real estate scheme and realize from the proceeds of the land which such an industry will increase in value, enough money to finance the plant.

## BALL OF FIRE HITS CHURCH

LIGHTNING DOES VERY LITTLE DAMAGE TO TOWER ON ST. JOSEPH'S, OWING TO TORRENTIAL RAIN.

Creates Havoc Throughout Peoria, Several Houses Struck and Burned—Losses Will Reach \$10,000.

Kansas City, Nov. 7.—A bolt of lightning, resembling a ball of fire struck the top of the tower of St. Joseph's Catholic church. Nineteenth and Harrison streets, during the torrential rain about 1 o'clock yesterday afternoon.

The steeple, a wooden structure built up from the tower, was ignited, but the fire gained little headway, on account of the rain, and was easily extinguished by the fire department.

Sparrows and pigeons which inhabit the tower seemed to be little disturbed. Only one dead bird was to be found when the tower was entered. The electric light and telephone connections were burned out, but were replaced in time for evening service.

Father A. G. Clohessy is pastor of the church.

The rain at times resembled a cloud-burst. One and three-tenths inches of water fell between 12:55 and 1:20 o'clock p. m. The streets were running streams but the street car service was little impaired. Some of the cars were several minutes late.

## Storm Damage in Illinois.

Peoria, Ill., Nov. 7.—The Illinois river valley was swept tonight by the severest electrical storm on record at the local weather bureau. Lightning created havoc throughout Peoria and for a time all communication was cut when the lines of both telegraph and telephone companies were lost. Several houses were struck and burned, and the financial losses will reach more than \$10,000.

Meager reports from surrounding towns show considerable damage by wind and lightning. The storm followed an exceptionally warm day.

A freak of the storm at the home of Robert Conkey, nearly cost the life of Mrs. Conkey. A large ball of lightning entered through the open door, encircling the dining room and passing without damaging the house a particle. Mrs. Conkey received such a shock that for two hours she was unconscious. A stepdaughter was paralyzed in the left arm.
